

Tracking Parkinson's Medications

Parkinson's medication impacts how well a Parkinson's patient can move. So, it's very *important that you give medication on a strict schedule* and as shown here:

- In order to swallow the pills more easily, s/he takes these pills with _____.
- Medications should be taken before/after meals.

Monday Medication	Morning Dose	Afternoon Dose	Evening Dose	Bedtime Dose
Tuesday Medication	Morning Dose	Afternoon Dose	Evening Dose	Bedtime Dose
Wednesday Medication	Morning Dose	Afternoon Dose	Evening Dose	Bedtime Dose
Thursday Medication	Morning Dose	Afternoon Dose	Evening Dose	Bedtime Dose
Friday Medication	Morning Dose	Afternoon Dose	Evening Dose	Bedtime Dose
Saturday Medication	Morning Dose	Afternoon Dose	Evening Dose	Bedtime Dose
Sunday Medication	Morning Dose	Afternoon Dose	Evening Dose	Bedtime Dose

Medications need/ do not need to be set out.

My loved one does/ does not need to be prompted to take medications.
